Technical VA & Automation Specialist | n8n | API Integrations | AI-Assisted Workflows

AUTOMATION & DEVELOPMENT PROJECTS

Support Ticket Router & Draft Reply

Aug 2026

n8n | AI Integration | JavaScript | Google Sheets | Structured Outputs

- Designed an AI-assisted support workflow that classified tickets across 5 categories and 3 urgency levels while capturing requested actions and review requirements in structured output.
- Implemented JSON-schema validation plus deterministic review rules for ambiguous, refund-related, and account-security cases, separating sensitive routing logic from the language model.
- Built guarded draft-reply logic that used ticket context without inventing policies, timelines, completed actions, or unsupported facts.

Invoice Collections Automation

Aug 2026

n8n | Webhooks | Google Sheets | Gmail | HTTP APIs | JavaScript

- Built an end-to-end invoice workflow covering intake, normalization, validation, duplicate prevention, storage, routing, notifications, and external API delivery across 3 collection-priority tiers.
- Improved workflow reliability with bounded retries, failure classification, delivery-status tracking, and technical error logging while keeping downstream failures separate from accepted business records.
- Prepared the workflow for maintainable public handoff with sanitized exports, sample payloads, screenshots, setup instructions, architecture notes, and testing documentation.

Workflow Operations Manager

2026

JavaScript | HTML | CSS | Local Storage | REST API

- Developed a responsive operations dashboard for leads, clients, projects, nested tasks, deadlines, calendar views, and reports using modular vanilla JavaScript.
- Implemented CRUD operations, search/filter/sort, derived project status, dashboard metrics, persistent Local Storage, API data, keyboard shortcuts, and theme management.

TECHNICAL EXPERIENCE

Holy Rosary Academy of Las Piñas City

Jan 2025 - Feb 2025

ICT / IT Support Trainee | Las Piñas City, Philippines

- Troubleshoot hardware and software issues, supported device setup and software installation, and followed procedures for routine technical maintenance.
- Maintained clear, searchable IT records and technical documentation to support consistent handoff and routine troubleshooting.

EDUCATION

Dr. Filemon C. Aguilar Memorial College of Las Piñas

Expected 2029

Bachelor of Science in Information Systems

Las Piñas City, Philippines

Holy Rosary Academy of Las Piñas City

2025

Technical-Vocational-Livelihood - ICT / Programming Java

Las Piñas City, Philippines

SKILLS & CERTIFICATIONS

Automation & AI: n8n, Workflow Automation, AI Integration, Prompt Engineering, REST APIs, Webhooks, JSON, Data Validation, Error Handling

Web & Development: JavaScript, HTML5, CSS3, Responsive Web Design, HTTP, DOM, Local Storage

Developer Tools: Google Workspace, Microsoft 365, Git, GitHub, VS Code, Chrome DevTools

Certification: n8n Academy - AI Testing Best Practices (2026)

Language: English - C2 Advanced Mastery (OnlineJobs.ph assessment)
