AI Automation & Systems Specialist | n8n • APIs • RAG • TypeScript • PostgreSQL

AUTOMATION & DEVELOPMENT PROJECTS

Panoptes OS - AI-Assisted Automation Incident Recovery | Oct 2026

- Built an AI-assisted incident recovery system for failed automations using React/TypeScript, Node.js/Fastify, n8n, Supabase/PostgreSQL, Groq API, Docker, and Playwright.
- Designed persistent incident state, structured AI diagnosis, deterministic recovery policy, human approval, bounded retries, authorization controls, outcome verification, and regression protection.

RetailRAG - Operations Decision System | Sep-Oct 2026

- Built an n8n-based RAG decision-support system with Google Drive knowledge ingestion, Gemini embeddings, Supabase vector retrieval, structured AI outputs, and run logging.
- Added deterministic security gates, prompt-injection controls, citation/evidence validation, insufficient-evidence handling, and automated evaluation with 7/7 evaluation and 8/8 production regression passes.

Revenue Recovery OS | Sep 2026

- Built and deployed a full-stack churn-risk and recovery system using React/TypeScript, Cloudflare Workers, Supabase/PostgreSQL, n8n, Slack, APIs/webhooks, and Vercel, with deterministic risk scoring, human-approved execution, retries, analytics, and 100 automated backend tests.

WORK EXPERIENCE

ICT / IT Support Trainee | Holy Rosary Academy of Las Piñas City | Jan 2025 - Feb 2025

- Supported computer setup, troubleshooting, software installation, maintenance, and day-to-day technical assistance for school users.
- Maintained IT-related records and documentation while following established procedures and communicating technical issues in practical terms.

EDUCATION

Bachelor of Science in Information Systems | Dr. Filemon C. Aguilar Memorial College of Las Piñas | Expected 2029

TVL-ICT / Programming Java | Holy Rosary Academy of Las Piñas City | 2025

SKILLS & CERTIFICATIONS

Automation & AI: n8n, AI Automation, RAG, Vector Retrieval, Structured LLM Outputs, Prompt Engineering, Human-in-the-Loop Workflows, API Integration, Webhooks

Development & Data: JavaScript, TypeScript, React, Node.js/Fastify, REST APIs, JSON, Supabase/PostgreSQL, Supabase Auth, Cloudflare Workers

Reliability & Tools: Docker, Playwright, Vitest, Zod, Git/GitHub, Vercel, Google Workspace, Slack, Error Handling, Technical Documentation

Certification: n8n Academy - n8n103: In Practice: AI, Testing, and Best Practices

Language: English - C2 Advanced Mastery
