Automation & AI Solutions Specialist | n8n • APIs • PostgreSQL • TypeScript • AI Workflows

AUTOMATION & DEVELOPMENT PROJECTS

Revenue Recovery OS | Sep 2026

- Built and deployed a full-stack churn-risk and recovery system using React/TypeScript, Cloudflare Workers, Supabase/PostgreSQL, n8n, Slack, APIs/webhooks, and Vercel.
- Designed explainable risk scoring, AI-assisted recommendations with Zod validation/fallback, human approval, lifecycle state, retry/error tracking, analytics, demo security, and 100 automated backend tests.

AI Support Operations Triage System | Aug 2026

- Built an AI-assisted support workflow that converts unstructured tickets into validated structured data, assigns 5 categories and 3 urgency levels, and routes sensitive or ambiguous cases for human review.
- Added deterministic review rules, operational logging, guarded draft replies, and provider-failure awareness so AI assists interpretation without owning business authorization.

Invoice Collections Automation | Aug 2026

- Built an end-to-end n8n collections workflow with validation, deduplication, priority routing, Google Sheets/Gmail/HTTP integrations, bounded retries, delivery tracking, error logging, and public technical documentation.

WORK EXPERIENCE

ICT / IT Support Trainee | Holy Rosary Academy of Las Piñas City | Jan 2025 - Feb 2025

- Supported computer setup, troubleshooting, software installation, maintenance, and day-to-day technical assistance for school users.
- Maintained IT-related records and documentation while following established procedures and communicating technical issues in practical terms.

EDUCATION

Bachelor of Science in Information Systems | Dr. Filemon C. Aguilar Memorial College of Las Piñas | Expected 2029

TVL-ICT / Programming Java | Holy Rosary Academy of Las Piñas City | 2025

SKILLS & CERTIFICATIONS

Automation & AI: n8n, Workflow Automation, AI-Assisted Systems, Structured LLM Outputs, Prompt Engineering, Human-in-the-Loop Workflows, API Integration, Webhooks

Development: JavaScript, TypeScript, React, REST APIs, JSON, Cloudflare Workers, HTML, CSS

Data, Reliability & Tools: Supabase/PostgreSQL, Zod, Vitest, Slack, Google Workspace, Git/GitHub, Vercel, Error Handling, Technical Documentation

Certification: n8n Academy - AI Testing Best Practices

Language: English - C2 Advanced Mastery
